

Chicano Studies Center Publications

CSC Publications, and other Chicano publishing outlets, were created to provide responsible and reliable sources for materials on Chicanos. Since its inception, CSC Publications has been filling a much needed service by providing diverse quality materials through its various publications. These books are a valuable research and bibliographical resource for teachers at all educational levels and an authoritative and credible information source for the general public. All editorial responsibility rests with the editorial board, which is comprised of concerned scholars in various disciplines who are indigenous to the Chicano community.

Aztlán-International Journal of Chicano Studies Research

Aztlán is a forum for scholarly writings on all aspects of the Chicano community. It is the first journal sponsored by a university or college in the United States that focuses critical discussion and analysis on Chicano matters as they relate to the group and to the total U.S. society. The works presented offer original research and analysis in the social sciences, humanities and the arts, related to Chicanos. (\$15.00 Individuals, \$20.00 Libraries and Institutions for one volume year/3 issues. Single issue prices available.)
