# Western Journal of Emergency Medicine:

## Integrating Emergency Care with Population Health

### JOURNAL FOCUS

Emergency medicine is a specialty which closely reflects societal challenges and consequences of public policy decisions. The emergency department specifically deals with social injustice, health and economic disparities, violence, substance abuse, and disaster preparedness and response. This journal focuses on how emergency care affects the health of the community and population, and conversely, how these societal challenges affect the composition of the patient population who seek care in the emergency department. The development of better systems to provide emergency care, including technology solutions, is critical to enhancing population health.

## Table of Contents

### *continued*

- 354 **Gay and Bisexual Men's Perceptions of Police Helpfulness in Response to Male-Male Intimate Partner Violence**  
*C Finneran, R Stephenson*
- 363 **Who Sends the Email? Using Electronic Surveys in Violence Research**  
*MA Sutherland, AF Amar, K Laughon*
- 370 **Sexualized and Dangerous Relationships: Listening to the Voices of Low-Income African American Girls Placed at Risk for Sexual Exploitation**
